Engineering

# Freyberg/Featherston intersection

**PROBLEM – Not much room and very little budget!!!!!!**

# Pre Round about layout

## Safety Peer Reviewers concerns

The roundabout was peer reviewed for safety prior to construction and comments were made about the minimal deflection along Featherston St and 'why not traffic signals?'

The proposed design was quite out of the ordinary..... SO, with confidence and final engineers approval...

The design, became reality early 2006...

# YES – that is an Advanced Stop box at a Roundabout!

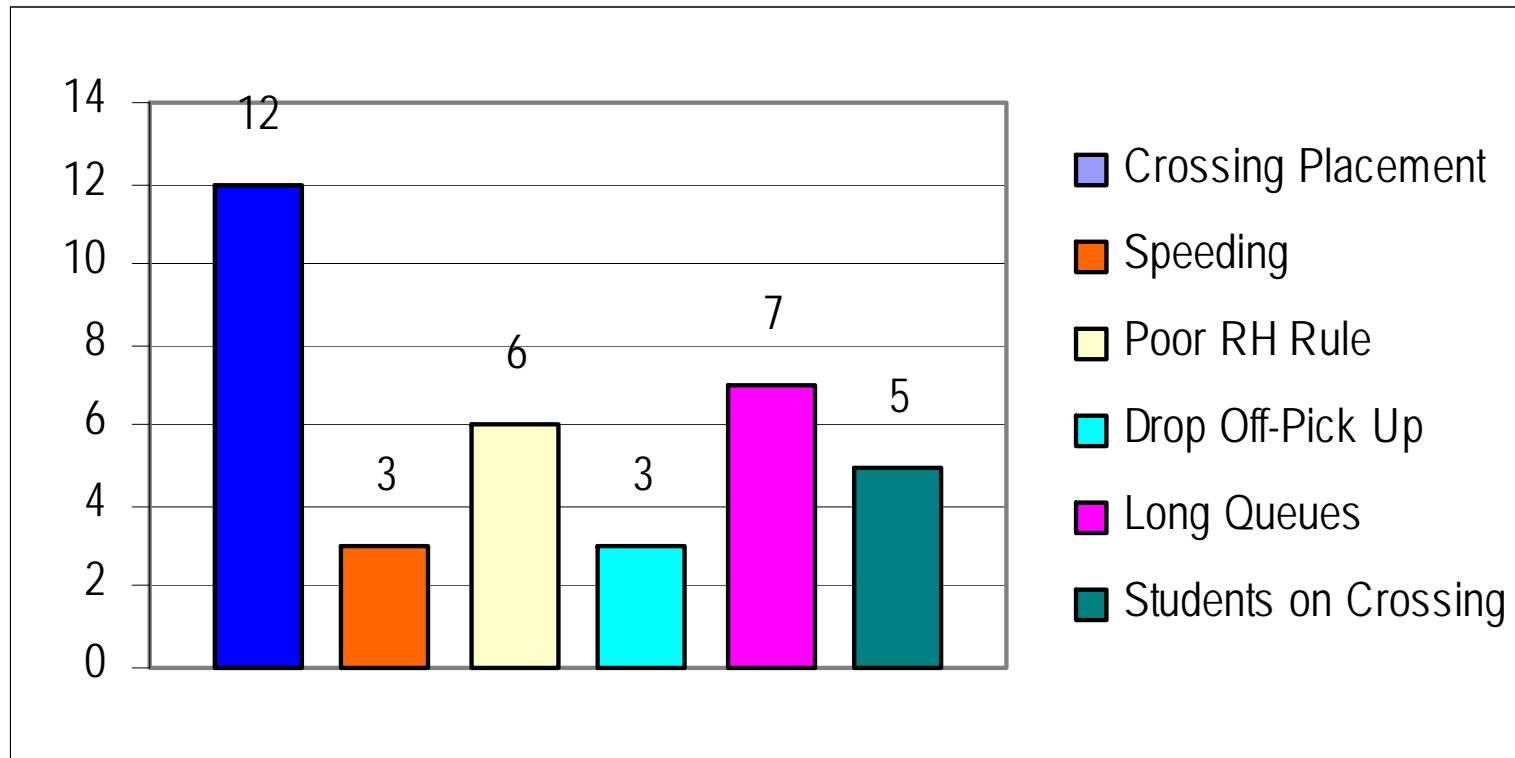

...more pics...

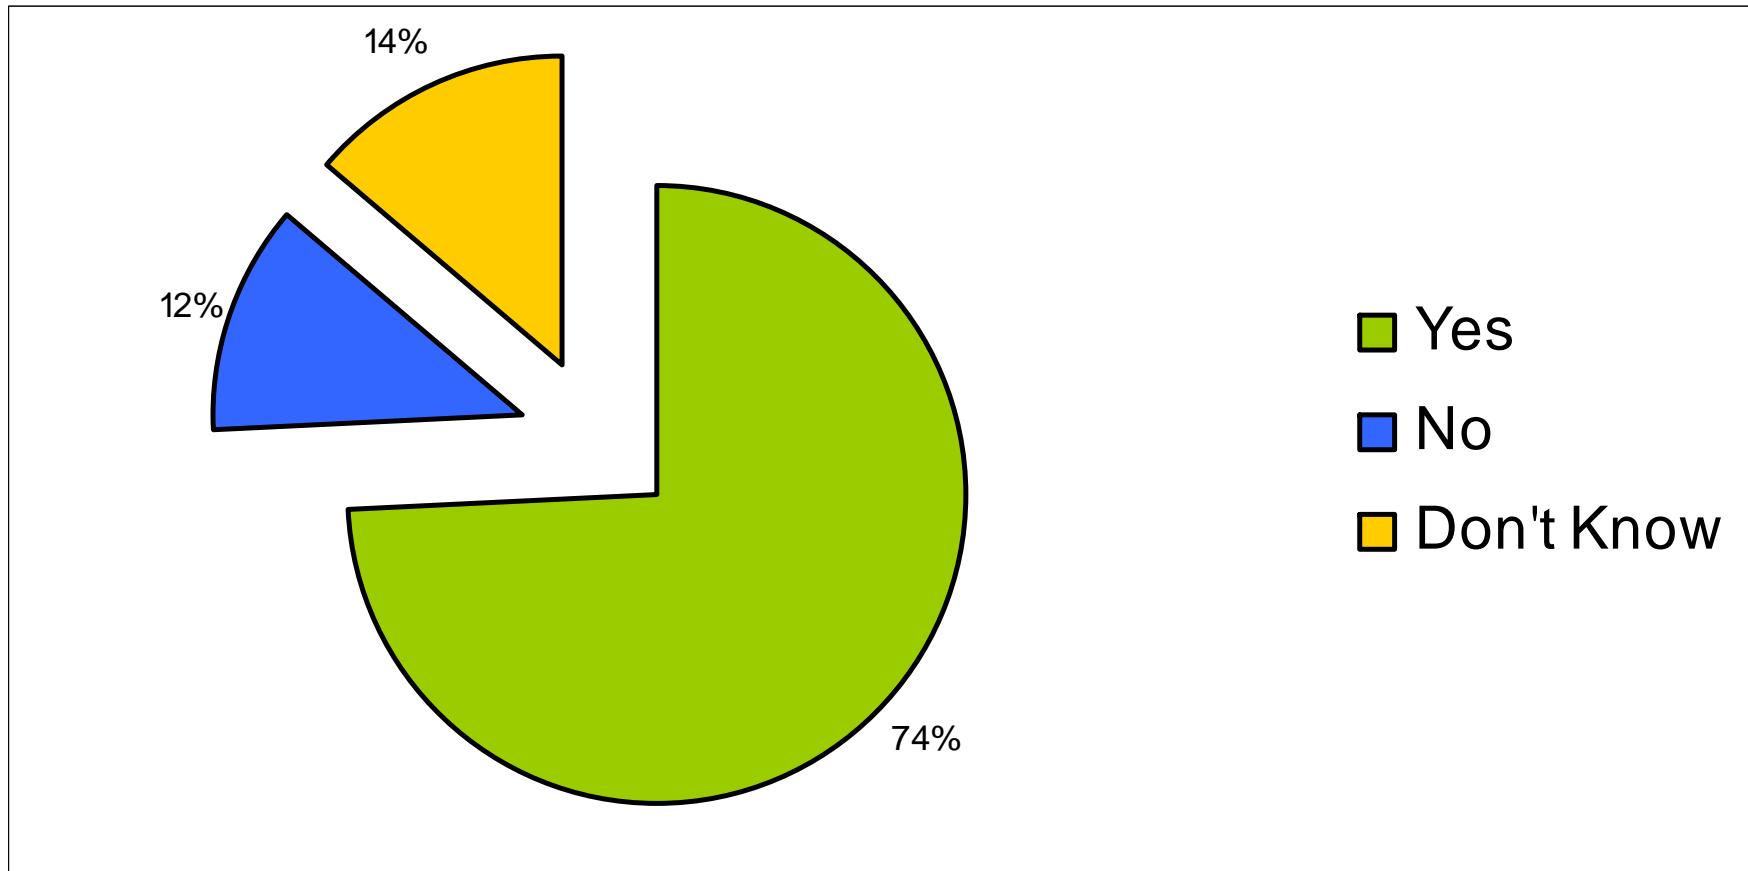

# Post construction feedback

When asked, have any alternate problems been created...

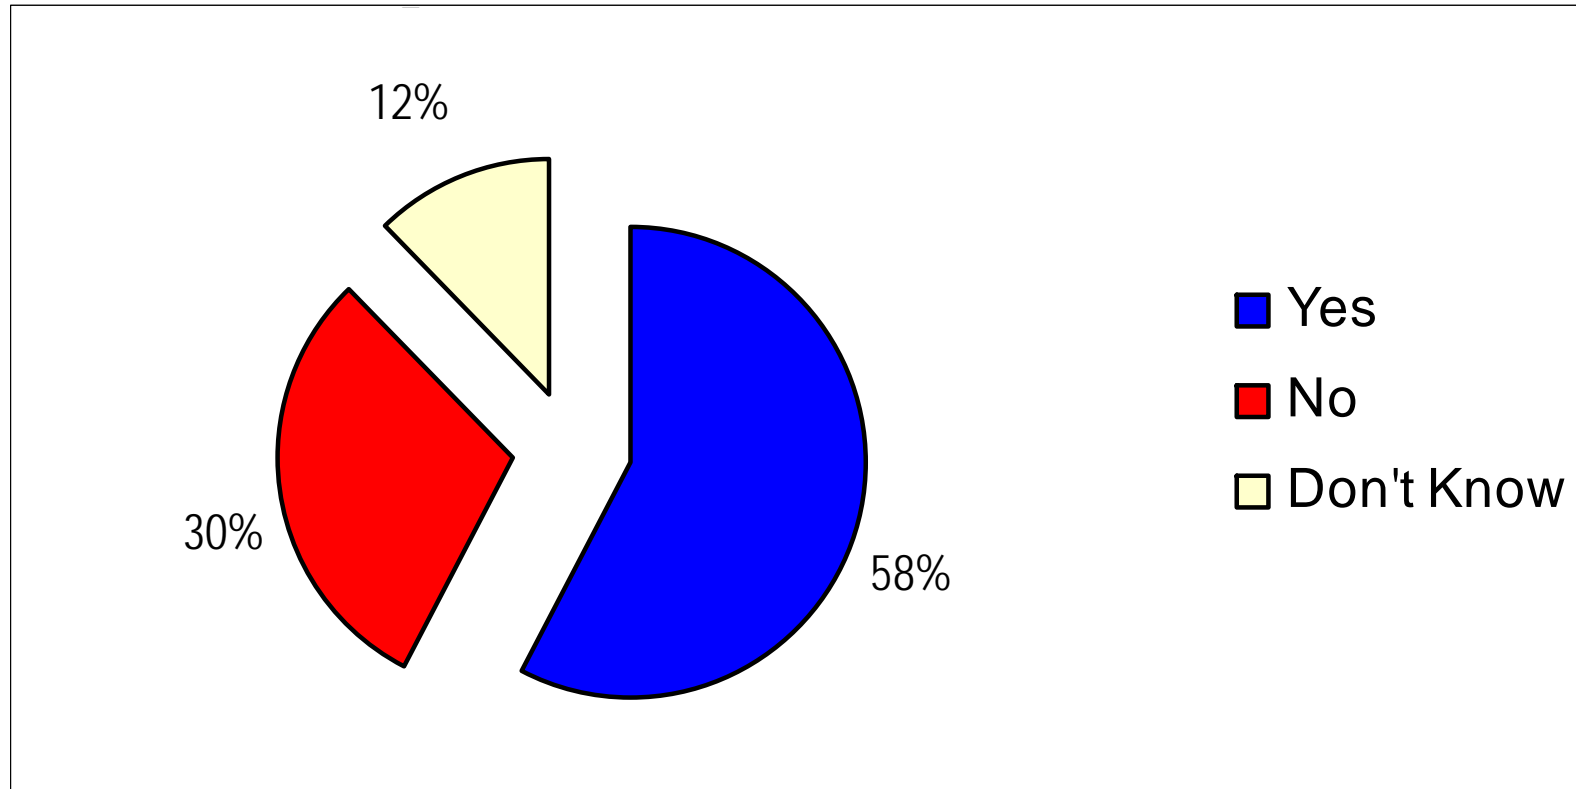

# Post construction feedback

When asked, is the new roundabout successful...

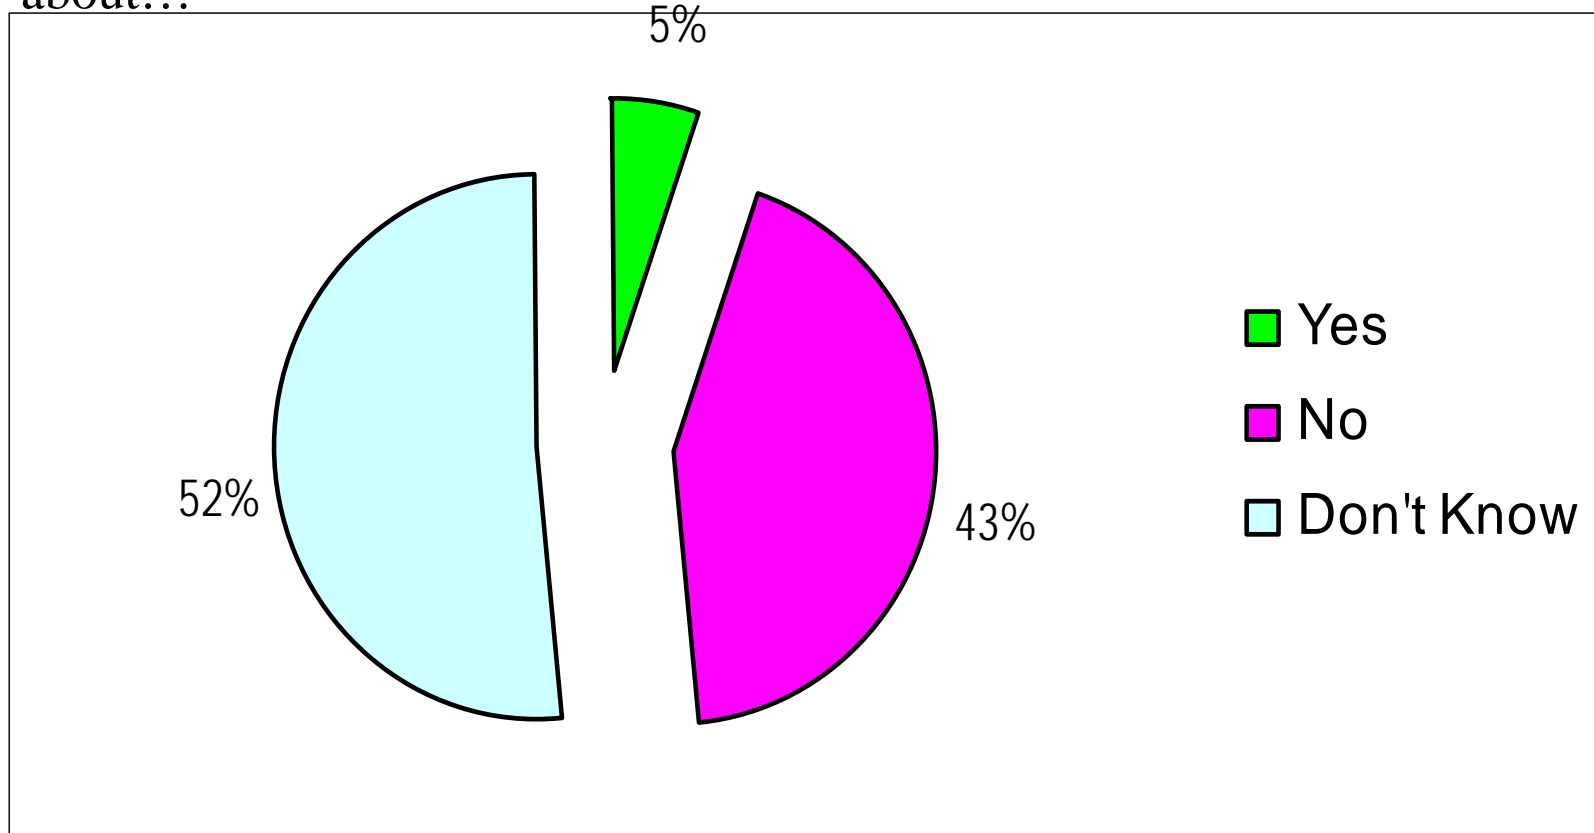

# Post construction feedback

When asked, does the round about **increase awareness** for cyclists...

# Post construction feedback

When asked, are there more cyclists since constructing the round about...
