

CAN Do - Cycling Advocates' Workshop

Saturday 4 - Sunday 5 October 2008 www.can.org.nz

Our City O-Tautahi, corner of Worcester Boulevard and Oxford Terrace Christchurch

The annual CAN Do, CAN's national planning and training workshop, is in Christchurch on the weekend of 4 and 5 October. It's a chance for CANNers to help with the future of CAN, to learn, to gossip, to ride bikes, and to generally have a good time.

It's also a time to celebrate our achievements over the last year. There's sure to be a party. Join cycling advocates from around New Zealand to learn from each other, gain inspiration and ideas.

CAN Do includes sessions on funding, building membership, demystifying council planning processes, making submissions, creating irresistible campaigns, relationship building, presentations from cycling advocacy groups, working with CAN, and of course riding our bikes.

Friday 3 October, 9am-4pm: Digital Strategy Hackfest / Workshop

venue: ViaStrada, Level 6, Link Centre, 152 Hereford Street, Christchurch

CAN's webmaster Andre will be running a full day workshop on getting the most out of CAN's new website. The morning will be allocated to demonstrations of cool features such as Google Maps applications, campaigns, and submissions. The afternoon will be allocated to one-on-one work on individual projects. Everyone is welcome. Travel expenses will be covered for those participating in the CAN Do Workshop.

Friday 3 October, 5pm: Gemini Cycle Friendly Awards 2008

The Gemini Cycle Friendly Awards 2008 will be presented by the Hon. Annette King in the Canterbury Provincial Buildings, Durham Street, Christchurch. All welcome.
